

Beatriz Schwartz S. Barbosa

Software Engineer (Frontend Specialist)

Languages:

English (Fluent)
Portuguese (Native)

Summary

I'm a Software Engineer with **5 years of experience** working with **Frontend technologies**. I've also worked in the Back-end (Node JS). But definitely I'm a Frontend specialist.

Education:

🎓 Bachelor's degree in Software Engineering UTFPR (2017 - 2023)

Work history:

🏢 QuintoAndar August/2022 – Present

QuintoAndar is a 100% digital **real estate agency**. I currently work on improving the experience of owners that rent and sale through QuintoAndar. My main daily activities include:

- **Develop new features** (as well as monitor them after release)
- **Create documentations** (product refinings, spikes, discoveries)
- **Lead engineering initiatives and architect complex flows**
- **Mentor other developers**

Technologies: ReactJS, Typescript, NextJS, React Testing Library

🏢 Kiwi Grocery (Current NetRx) 04/2021 – 06/2022

At this **Canadian startup**, I contributed to the creation of the complete product and delivery management website "Kiwi Grocery". The company's purpose was to help local traders in the city of Calgary increase their sales. The product and delivery management website was developed with **React JS and Vite** (with **Typescript**). I was also able to assist with tasks on the application used by traders and buyers, made in Flutter.

🏢 Luby Software 03/2020 – 03/2021

I was hired as an intern at Luby Software, and after 6 months I was promoted to Junior Developer. In this company I worked on large projects, such as an app from the energy company **Engie**, made in **React Native**, which consumed a high volume of data and displayed it in the form of graphs to users.

🏢 Gempe 09/2019 – 03/2020

It was my first **internship** in tech. I developed the "Gempe Lab" **website** from scratch using **React JS with Typescript**. Additionally, I developed a "Protected Farming" application with React Native. This app aimed to facilitate the activation of insurance for rural owners and properties.

HARD SKILLS:

- React JS
- Javascript / Typescript
- Modern JavaScript
- HTML
- CSS / SASS / CSS Modules
- REDUX / Context API
- Unit tests (Jest and RTL)
- React Native
- Responsive Design
- Styled Components
- React Query / Axios
- Flutter

SOFT SKILLS:

- Leadership
- Non-violent communication
- Effective communication
- Team work
- Time management
- Be self-taught
- Adaptability
- Problem solving
- Creativity
